

# Automatic Digital Thermometer HT-901

## Automatic Digital Thermometer

**Practical In Use:** The thermometer features the high-precision infrared sensors, which makes it feature the stable and reliable performance, and the thermometer features the strong adaptability to ambient temperature, which can still be used normally in complex environments.

**High Quality:** In order to provide reliable results and ensure excellent performance, we apply updated high-precision sensor probes and the latest smart chips to the thermometer. So the thermometer is faster, more reliable, and more secure to use.

**Durable Design:** The thermometer can be adjusted within the range of 3-5CM/ which requires no a fixed measurement distance. And the thermometer features the excellent durability.

## FEATURE

- Temperature 32°C to 42.5°C
- Accuracy is better than  $\pm 0.3^\circ\text{C}$
- Automatic Voice confirm (Thai , Eng, etc )
- Automation measure Temperature
- Memory Record
- Alarm High Temp

## SPECIFICATION

Measuring methods	Non-contact Infrared
Measurement distance	3cm ~ 5cm
Measurement range	32°C ~42.5°C
Maximum permissible error	32°C ~42.5°C within the scope of $\pm 0.3^\circ\text{C}$
Display resolution	0.1°C
Operate environment	10°C ~40°C Humidity $\leq 85\%$
Transport and Storage environment	0°C ~50°C Humidity $\leq 85\%$
Power Supply	90 ~ 230 VAC 15W
Size	20 x 23 x 16 Cm. (WxHxD)
Weight	2.38 Kg

## TYPICAL APPLICATION

- Measure body temperature

## SCOPE OF DELIVERY

- Automatic Digital Thermometer
- Power AC Cable
- Factory Calibration report

## OPTIONAL ACCESSORIES

- Sticker Dispenser
- Metal Tripod (2.14kg)
- Accredited calibration Certificate ISO17025
- AC Outlet Power Bank (1.5kg 110V/100W)

## ORDERING MODEL NUMBER

- HT-901
